The screenshot shows a MOOC course page for "3D Printing Technology" (3D打印技术) by Chen Ying (陈英). The course is offered by Shandong Vocational College of Technology (山东职业技术学院) and is categorized under "Vocational Education" (高职) and "Equipment Manufacturing Category" (装备制造大类). The course is currently in its 5th session (第5期开课). The progress bar indicates that the course has progressed to 1 out of 20 weeks. The total duration is 32 hours, with a start date of August 23, 2024, and an end date of January 6, 2025. The recommended learning arrangement is 1.60 hours per week. The course has 2538 students enrolled in this session (本期1人), 70 institutions (本期1个), 25165 interactions (本期0次), and 543858 total logs (累计日志总数). The course introduction states that it aims to improve scientific literacy and practical skills in 3D printing technology, covering topics like equipment installation, debugging, maintenance, and production management. It also mentions that the course is part of a larger program and provides necessary advanced manufacturing knowledge for students' future learning.

统计项	本期数据	累计数据
累计选课人次	2538人 (本期1人)	543858人
学员所属单位	70个 (本期1个)	32103人参加
累计互动次数	25165次 (本期0次)	32103人参加

3D打印技术

乐山职业技术学院 陈英

目录 全部展开

- 项目一 3D打印技术基础
- 项目二 3D打印机操作与维修
- 项目三 三维正向设计
- 项目四 三维逆向设计
- 项目五 三维模型切片与3D打印...
- 项目六 3D打印产品设计与制作
- 拓展项目：3D打印职业岗位及...
